Email Archiving And Compliance

Never Lose Email Again - Stay Compliant and in Control

Archive, eDiscover and Restore...

In addition to our Exchange service we can also offer a world-class compliance archiving and monitoring solution that seamlessly integrates with email and messaging systems to deliver superior search, retrieval and monitoring capabilities. Its enterprise-class, web-based email archiving tools address the demands of regulatory compliance, audits and eDiscovery while alleviating the burdens of data management, storage, security and business continuity.

Whether communicating with clients or employees, email has become a principal business tool for almost all companies. Retention and management of these records is essential to protect your company's intellectual capital and to ensure regulatory compliance. To enable your business to meet these requirements, We Are Cloud offers Message Archiver, an industry-leading compliance archiving and monitoring solution to securely store email for regulatory compliance, audits and eDiscovery.

Email Archiving At A Glance

· Ensure Compliance with Industry Regulations

· Seamless Integration with Existing Email Services

· Complete Disaster Recovery Provisions

· Archive Both New and Existing Mail

· Industry Leading Solution

· Powerful Online Interface for Simple, End-User Access

Key Benefits

Business Continuity & Disaster Recovery

• Geographically isolated offsite backup

• Acts as a secondary mail system to send, receive, compose & restore email

• One-Click Recovery to Outlook

Message Management

• Secure, centralized, off-site storage

• Online user access for self-service search

• Rapid search and retrieval via full text indexing and search engine technology

• Searches on message, headers, and all attachments

• Messages are serialized, time-date stamped

• Eliminates PST files and migrates existing data to archive

• Administrator-controlled access

Implementation

• Software-as-a-Service model with simple implementation

• No software or hardware required

• Seamless integration with We Are Cloud Hosted Exchange service

How Does It Work...?

We Are Cloud's Message Archiving solution provides secure, off-site message archiving and long-term storage with simple, online access. A tamperproof copy of all incoming, internal and outgoing electronic data, including email and attachments, e-fax, BlackBerry and any imported legacy email, is captured, replicated, unified and archived.

Simple web-based search and retrieval tools provide rapid access by compliance officers and employees to both current and historical email records, even if the original has been deleted.
